PROFESSIONAL SUMMARY

Technical Project Manager with 15+ years of experience in software engineering, technical leadership and project delivery. Experienced in taking mobile and web initiatives from planning through development, QA, release and production support. Strong in Agile/Scrum delivery, stakeholder communication, risk and dependency management, release planning, project governance and cross-functional coordination. Earlier experience as a Software Architect provides a practical understanding of APIs, databases, integrations, cloud services and application architecture, helping bridge business priorities and engineering execution.

CORE SKILLS

Project Management: Project Planning & Execution | Agile/Scrum | Sprint Planning | Release Management | Project Governance | Risk & Dependency Management | Change Management | Stakeholder Management | Resource Planning | Delivery Tracking | KPI Reporting

Delivery & Technical: SDLC | QA & Defect Management | Production Releases | Software Architecture | System Design | REST APIs | Microservices | Azure Functions | MySQL | MongoDB | SQLite | CI/CD | DevOps

Mobile & Application: iOS | Swift | Objective-C | Xcode | TestFlight | Firebase | Android | Java | Flutter | React Native

Tools: Jira | Azure DevOps | GitHub | Asana | Zendesk | Git | Figma | Google Analytics

AI & Automation: Generative AI | OpenAI | Claude | Prompt Engineering | Workflow Automation | LLM Integration

PROFESSIONAL EXPERIENCE

Project Manager, CAPM®

Vagaro Technologies Pvt Ltd, Ahmedabad | Jan 2025 - Sep 2026

- Managed end-to-end delivery of software initiatives across planning, sprint execution, QA, release readiness and production deployment.
- Led Agile/Scrum delivery across multiple workstreams, running sprint planning, backlog coordination, delivery reviews and retrospectives while keeping teams focused on committed milestones.
- Worked closely with Product, Engineering, QA, Design and business stakeholders to clarify priorities, resolve blockers and manage dependencies across mobile and web releases.
- Maintained project governance through status updates, milestone reviews, risk and dependency tracking, delivery KPIs and leadership reporting.
- Coordinated release readiness, defect triage, QA sign-off, CI/CD activities and production rollout, including follow-up on post-release issues.
- Managed scope and change requests by assessing delivery impact, technical dependencies, resource needs and release timelines before stakeholder alignment.
- Built practical dashboards and automation workflows to improve visibility into delivery, support workload and operational follow-up.
- Used generative AI and automation for ticket summarization, investigation support, customer-feedback review and repetitive project-management tasks.

Software Architect | Technical Project Manager

Vagaro Technologies Pvt Ltd, Ahmedabad | Dec 2021 - Feb 2025

- Designed and reviewed software solutions for enterprise mobile and web products, working with engineering teams on APIs, databases, integrations, microservices and Azure Functions.
- Partnered with product and engineering teams on technical feasibility, estimates, dependencies, architecture decisions and delivery planning.
- Supported payment and cloud-based solutions operating at large scale, with a focus on reliability, maintainability and production readiness.
- Identified technical and delivery bottlenecks, guided implementation decisions and supported engineering best practices across teams.

Team Lead

Vagaro Technologies Pvt Ltd, Ahmedabad | May 2019 - Nov 2021

- Led engineering teams, coordinated technical execution, mentored developers and supported sprint and release planning.
- Led delivery of customer-facing mobile applications, including branded and check-in experiences used at scale.
- Supported team training, code quality and Agile practices to improve delivery consistency.

Technical Lead

Vagaro Technologies Pvt Ltd, Ahmedabad | May 2018 - Apr 2019

- Led technical delivery, architecture discussions, system changes, security reviews and CI/CD improvements.
- Worked with developers and stakeholders to troubleshoot technical issues and improve application performance.

Senior Software Engineer

Vagaro Technologies Pvt Ltd, Ahmedabad | Aug 2016 - Apr 2018

- Designed and developed iOS applications using Swift and Objective-C, integrated APIs and supported production releases.
- Mentored junior developers and introduced testing and code-quality practices.

iOS Developer

Silver Touch Technologies, Ahmedabad | 2015 - 2016

- Developed native iOS applications, integrated third-party APIs and collaborated with UX/UI and backend teams.

iOS App Developer

NTech, Ahmedabad | 2014 - 2015

- Managed iOS application development from implementation and testing through App Store deployment.

Mobile Application Developer

Netclues, Ahmedabad | 2011 - 2014

- Built mobile applications for iOS and Android, integrated REST APIs and translated product requirements into technical implementation.

EDUCATION

Bachelor of Engineering, Information Technology - The Maharaja Sayajirao University of Baroda

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Certified Associate in Project Management (CAPM)® - Project Management Institute | Oct 2024 - Oct 2027

Intelligent Automation for Project Managers - Project Management Institute | Nov 2024

Microservices Architecture - The Complete Guide - Udemy | Oct 2023

Software Architecture & Design of Modern Large Scale Systems - Udemy | Oct 2023

PMP preparation in progress
