10+ Years in Software Delivery | 5+ Years in Project Management | CAPM | PSM I | Immediate Joiner

PROFESSIONAL SUMMARY

Project Manager and Scrum Master with 10+ years in software delivery, including 5+ years in project and technical project management. Experienced in Agile, Scrum, Kanban, Waterfall and Hybrid delivery across the SDLC. Managed up to 3 concurrent workstreams with program-level coordination, led cross-functional teams of up to 15, and supported 100+ releases across mobile, web, tablet and payment platforms. Strong in sprint planning, retrospectives, backlog prioritization, product roadmap alignment, stakeholder management, RAID tracking, scope and change control, release management and UAT/QA coordination. Tracks delivery through KPIs, OKRs and velocity. Differentiator: hands-on workflow automation and GenAI tools applied to project reporting, with all AI-assisted outputs validated before use.

SELECTED DELIVERY IMPACT

3 concurrent workstreams | Cross-functional teams up to 15 | 100+ releases | ~400 tickets/week routed | ~30% fewer manual follow-ups

CORE SKILLS

Project and Program Delivery: Project Management, Program Management, Agile, Scrum, Kanban, Waterfall, Hybrid, SDLC, Sprint Planning, Sprint Retrospectives, Daily Stand-ups, Backlog Refinement, Backlog Prioritization, Product Roadmap, User Stories, Milestone Tracking, Schedule Management, Release Management, Release Readiness, UAT, QA and Defect Management, Stakeholder Management, Cross-Functional Team Leadership, Vendor Management, Resource Coordination, Risk Management, RAID Log, RACI, Dependency Management, Scope Control, Change Control, Governance, Status Reporting, KPIs, OKRs, Velocity.

Tools: Jira, Confluence, Asana, Azure DevOps, Microsoft Project, Microsoft Teams, Zendesk, Power Automate, Gantt Charts.

AI and Automation: ChatGPT, Microsoft Copilot, Claude, MCP-connected Workflows, AI-Assisted Reporting, Prompt Design, Human-in-the-Loop Review, Workflow Orchestration.

Technical Context: iOS, Android, Swift, Objective-C, SQL, REST APIs, Azure Functions, Azure Service Bus, Azure Key Vault, Cosmos DB, Cloud Integrations, CI/CD, Fastlane, Apple App Store Connect, Google Play Console.

PROFESSIONAL EXPERIENCE

Project Manager | Vagaro Technologies Pvt. Ltd., Ahmedabad | Jan 2025 - Sep 2026

- Managed delivery across up to 3 concurrent projects and workstreams with program-level coordination, aligning Product, Engineering, QA and Support across iOS, iPad, Android, Android tablets, web, Paydesk and PayPro.
- Owned project plans, milestone tracking, sprint planning and retrospective follow-ups, release management, RAID tracking, dependency management, scope control and stakeholder communication.
- Led cross-functional teams of up to 15, aligning QA sign-off, UAT, rollout plans, production deployment and post-release follow-up across multiple platforms.
- Partnered with Product on backlog prioritization and translated requirements into user stories, tracking progress through KPIs and velocity.
- Implemented Zendesk-to-Asana ticket routing and Asana-to-Microsoft Teams status workflows using Power Automate; supported approximately 400 tickets per week and reduced manual status follow-ups by approximately 30%.
- Used ChatGPT and Claude with project context and connected tools to prepare draft project summaries, progress reports and management documentation; reviewed all outputs for accuracy before circulation.
- Worked with engineering and product stakeholders to clarify requirements, assess change impacts, resolve blockers and maintain alignment on delivery commitments.

Software Architect | Technical Project Manager | Vagaro Technologies Pvt. Ltd., Ahmedabad | Dec 2021 - Dec 2024

- Translated product and business requirements into solution approaches, architecture decisions, delivery estimates, dependencies and implementation plans.
- Designed and reviewed mobile and web solutions, REST APIs, databases, integrations, microservices and Azure Functions, considering security, scalability and release readiness.
- Coordinated technical delivery for payment, business-management, branded-app and cloud workflow initiatives; worked across teams to resolve technical dependencies.

Team Lead | Vagaro Technologies Pvt. Ltd., Ahmedabad | May 2019 - Nov 2021

- Led and mentored engineering teams of up to 15, coordinating day-to-day technical execution, sprint planning, sprint commitments, release planning and issue resolution.
- Partnered with QA, Product and Engineering teams to manage dependencies and deliver branded mobile apps and check-in solutions.
- Supported team training, code quality and Agile practices to improve delivery consistency and collaboration.

Technical Lead | Vagaro Technologies Pvt. Ltd., Ahmedabad | May 2018 - Apr 2019

- Led technical delivery, architecture discussions, system changes, security reviews and CI/CD improvements across mobile application initiatives.
- Worked with developers and stakeholders to troubleshoot production issues, resolve technical dependencies and improve application performance.

Senior Software Engineer | Vagaro Technologies Pvt. Ltd., Ahmedabad | Aug 2016 - Apr 2018

- Developed iOS applications using Swift and Objective-C, integrated APIs, supported production releases and mentored junior developers on testing and code quality.

iOS Developer | Silver Touch Technologies, Ahmedabad | 2015 - 2016

- Developed native iOS applications, integrated third-party APIs and collaborated with UX/UI and backend teams.

iOS App Developer | NTech, Ahmedabad | 2014 - 2015

- Supported iOS application development, testing and App Store deployment.

Mobile Application Developer | Netclues | 2011 - 2014

- Built iOS and Android applications, integrated REST APIs and translated product requirements into technical implementation.

SELECTED AI AND AUTOMATION EXPERIENCE

- **Zendesk-Asana-Teams Workflow Automation:** Connected Zendesk, Asana and Microsoft Teams using Power Automate to route support tickets, send project and status updates and trigger follow-ups. Supported approximately 400 tickets per week and reduced manual status follow-ups by approximately 30%.
- **Merchant Self-Service Branded App Automation:** Coordinated the self-service branded-app creation and mobile delivery workflow, including requirements, credentials, build submission, Azure integrations, release pipelines and store readiness.
- **Voice of Customer and Store Review Analytics:** Automated the collection and organization of customer complaints and mobile app-store reviews using API integrations, SQL, Azure Functions and Power Automate, with rule-based categorization and prioritization for team review.
- **GenAI-Assisted Project Reporting:** Applied ChatGPT, Microsoft Copilot and Claude to support project summaries, status reporting and management documentation, using project context and human review to validate outputs before sharing.
- Four AI and automation initiatives delivered in 2026, with ownership spanning planning, solution architecture, development coordination and deployment following approval.

EDUCATION

- Bachelor of Engineering (B.E.), Information Technology - The Maharaja Sayajirao University of Baroda

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

- Certified Associate in Project Management (CAPM) - Project Management Institute | Issued Oct 2024, valid through Oct 2027
- Professional Scrum Master I (PSM I) - Scrum.org | Oct 2026
- PMP (Project Management Professional) - Candidate, exam preparation in progress
- Practical Application of Gen AI for Project Managers - Project Management Institute | Nov 2026
- Generative AI Overview for Project Managers - Project Management Institute | Nov 2026
- Learn Jira with Real-World Examples (Confluence Bonus) - Udemy | Nov 2026
- Additional training: Microservices Architecture; Software Architecture and Design of Modern Large-Scale Systems - Udemy

LANGUAGES AND AVAILABILITY

English, Gujarati and Hindi (fluent) | Immediate joiner | Open to relocation, overseas opportunities and remote roles.
