10+ Years in Software Delivery | 5+ Years in Project & Technical Project Management | CAPM® | PSM I Certified | Immediate Joiner

PROFESSIONAL SUMMARY

Project Manager with 10+ years of software delivery experience, including 5+ years in project and technical project management. Experienced in coordinating up to 3 concurrent projects/workstreams, cross-functional teams of up to 15 people, and 100+ software releases across mobile and web platforms. Strengths include project planning, milestone tracking, stakeholder coordination, risk and dependency management, change control, delivery reporting, Agile/Scrum, and release readiness. Brings a strong software engineering and architecture foundation, plus workflow automation experience. Immediate joiner; open to relocation, overseas opportunities, and remote roles.

CORE SKILLS

Project Planning & Execution | Milestone & Schedule Tracking | Stakeholder Management | Risk & Dependency Management | Scope & Change Control | Resource Coordination | Agile/Scrum Delivery | Release & Deployment Coordination | QA & Defect Management | Project Governance & Status Reporting | KPI Tracking | Cross-functional Team Leadership | Jira | Azure DevOps | Asana | Microsoft Project | Excel | Power BI | Microsoft Teams | Power Automate | Zendesk

SELECTED DELIVERY HIGHLIGHTS

- Managed up to 3 concurrent project/workstreams and coordinated teams of up to 15 people.
- Coordinated 100+ software releases across mobile, web, tablet, and payment-device platforms.
- Automated workflows for approximately 400 tickets/week and reduced manual status follow-ups by approximately 30%.

PROFESSIONAL EXPERIENCE

Project Manager — Vagaro Technologies Pvt Ltd, Ahmedabad | Jan 2025–Sep 2026

- Managed up to 3 concurrent projects/workstreams, coordinating planning, sprint execution, QA, release readiness, and production deployment across cross-functional teams.
- Coordinated Agile/Scrum delivery for teams of up to 15 people, supporting sprint planning, backlog coordination, delivery reviews, retrospectives, and milestone commitments.
- Coordinated 100+ software releases across iOS, iPad, Android, Android Tablet, Web, Paydesk, and PayPro, including QA sign-off, rollout coordination, and post-release follow-up.
- Aligned Product, Engineering, QA, Design, and business stakeholders on priorities, blockers, dependencies, scope changes, and delivery commitments.
- Tracked project risks, dependencies, defects, delivery KPIs, and milestones; prepared leadership status updates and escalated delivery concerns.
- Evaluated change requests for impact on scope, technical dependencies, resource needs, and release timelines before stakeholder alignment.
- Automated Zendesk-to-Asana ticket workflows and Asana-to-Microsoft Teams status updates using Power Automate for approximately 400 tickets per week, reducing manual status follow-ups by approximately 30%.

Software Architect | Technical Project Manager — Vagaro Technologies Pvt Ltd, Ahmedabad | Dec 2021–Dec 2024

- Partnered with Product and Engineering on technical feasibility, estimates, dependencies, architecture decisions, and delivery planning.
- Designed and reviewed solutions for enterprise mobile and web products, collaborating on APIs, databases, integrations, cloud services, and production readiness.
- Identified technical and delivery bottlenecks, aligned teams on implementation decisions, and supported engineering best practices across projects.

Team Lead — Vagaro Technologies Pvt Ltd, Ahmedabad | May 2019–Nov 2021

- Led engineering teams of up to 15 people, coordinating technical execution, mentoring developers, and supporting sprint and release planning.
- Directed delivery of customer-facing mobile applications, coordinating engineering dependencies and release readiness.
- Supported team training, code quality, and Agile practices to improve delivery consistency and collaboration.

Technical Lead — Vagaro Technologies Pvt Ltd, Ahmedabad | May 2018–Apr 2019

- Led technical delivery, architecture discussions, system changes, security reviews, and CI/CD improvements across mobile application initiatives.
- Worked with developers and stakeholders to troubleshoot production issues, resolve technical dependencies, and improve application performance.

Senior Software Engineer — Vagaro Technologies Pvt Ltd, Ahmedabad | Aug 2016–Apr 2018

- Developed iOS applications using Swift and Objective-C, integrated APIs, supported production releases, and mentored junior developers on testing and code quality.

iOS Developer — Silver Touch Technologies, Ahmedabad | 2015–2016

- Developed native iOS applications, integrated third-party APIs, and collaborated with UX/UI and backend teams.

iOS App Developer — NTech, Ahmedabad | 2014–2015

- Supported iOS application development, testing, and App Store deployment.

Mobile Application Developer — Netclues | 2011–2014

- Built iOS and Android applications, integrated REST APIs, and translated product requirements into technical implementation.
